About 50 raiders on horseback made a foray in the western part of Boyle county Saturday night last. At a gate near Perryville they were fired on by two guards, and a general shooting followed. Mr. Tevis is now in business in Flora, Ill., where the happy pair will make their future home.

Mr. Baughman is one of Boyle county's rising young men. He has for some time been a deputy sheriff and is one of the county's leading farmers. He has always been considered a splendid business man and has manifested extraordinary good taste in the selection of a life partner.

## ALL WAR TALK.

WASHINGTON, March 22, '98.  
If any one desires to hear "war talk" he should be in Washington just now. I have heard nothing else since arriving here to-day. The newspapers are issuing "extras" on every little piece of information received and the papers sell like hot cakes. The general impression is that war will be declared but just when, no one knows.

There is not likely to be much friction in Congress over the disposition of the Maine report when it comes to congress. There is considered to be no room for controversy over the matter. The suggestion that the minority are going to resist the report being referred to the foreign affairs committee is pronounced little short of absurd. The rule requiring reference to committee is imperative. The most insignificant thing has to go through the formality of reference to committee, and there is apparently no disposition to treat so important a question as this with less regard for the forms of procedure than is shown in dealing with minor matters. The suggestion that as result of the conference between the President and Speaker Read yesterday the House was to be held in check by the reference of the report is based upon a false assumption.

The sentiment of the House is very pronounced. Without reference to party or politics the desire is for action as speedily as the circumstances of the case admit of. It is naturally expected, therefore, that the committee will very soon after the message has been referred report back whatever action is deemed desirable. The House may run away with it and take radical action, if the committee should not report a proposition that is satisfactory. This is mere speculation, however, since the Congress does not know what the report of the board of inquiry will disclose nor what the President will recommend. The committee will probably follow the President in whatever he recommends. Decisive action by the President is expected, and if this expectation is not disappointed there will be no friction over the question in Congress. There is a most decided opposition in both houses of Congress to anything like temporizing, and to any suggestion of arbitration or a proposition which involves the continuance of Spanish domination over any part of the Island of Cuba. The universal demand in Congress is for the relief of Cuba from the Spanish yoke and reparation (not indemnity) for the destruction of the Maine. If the course of the President departs widely from this policy no one doubts that there will be a disturbance in Congress, but it is not apt to be resolved into a party contention.

In such an improbable contingency it is thought that the friction would be between the President and practically the solid body of Congress. The sentiment is so strong that there seems no possibility that Congress will be content with a mild policy. There is a fixed purpose on the part of the leaders and the active men in all parties to hold themselves in restraint until the report of the Maine board has been made and then to give a reasonable time for action. Beyond this point there is no assurance that any sort of restraint will be possible.

The feeling that war is imminent is more general in Congress today than it has been before. From several conservative sources has come the assertion that the situation has assumed a graver aspect than at any time before and that war seems inevitable. The report comes from an administration source that the President is about to send to Congress a special message which will cause a sensation, clearing away all doubt that now surrounds the situation. This is represented as not being the message transmitting the report of the Maine court of inquiry, but one in advance of that, dealing with the general Cuban question. Of course a report of this sort cannot be verified but must be judged by its source.

In this case the source is good and has heretofore been reliable. The President sent for Senators Allison and Gorman today. This is the first time he has called a democrat into conference. Men who have been consulted or conferred with by the President are close-mouthed after talk with him, but there is no concealing that they are graver after the talk. Speaker Keed has determinedly refused to give information concerning his talk with the President, but men who have seen the Speaker are satisfied by his manner that he is not pleased with the situation and feels that a serious responsibility is being assumed by somebody for a very critical situation. It is said that he is evidently dissatisfied, but will not explain why. It is known only that he has never been in favor of war.

Members of the Kentucky delegation are slow to talk on the subject, but it is easy to see that deep down in their hearts they want a fight, and believe they will so vote if Congress ignores the President and takes action on its own accord.

Great Court.  
But little business has been done in Court since last issue.  
The Grand Jury adjourned Wednesday, after returning twenty-one indictments.  
James Whitaker charged with the murder of Jno. Grady, was acquitted. It being proved that he acted in self-defense.

Warning.  
The City Council of Lancaster, and the local board of health have issued an order requiring all persons coming from districts infected by small pox to show a health certificate, stating that they had been vaccinated within the past year. This is a good move, and we believe if every citizen will heed the warning and submit to vaccination we will escape this terrible epidemic. All persons who are unable to pay for this service will be vaccinated free of charge by the local board of health.

Small Pox at Richmond.  
Three of the pest-houses have been completed at Richmond, and a fourth is being put up. Tents have arrived from Frankfurt for the use of guards. The small-pox subjects have been moved to the pest-house. Vaccination continues to be pushed. The first death from small pox reported is that of Sophia Walker, colored, who has been in a precarious condition for some time. There are no other cases considered necessarily fatal at present. The first white case developed that of a woman who lives near the negro quarters.

## FOR CONGRESS.

In obedience to the requests of Democrats in every part of the Eighth Congressional District, and in accordance with my desire to be of service to the Democratic party and the country, in critical and important times, I announce myself a candidate for Congress, subject to the action of the Democratic party.

As a loyal Democrat, I have always supported the nomination and platform of the Democratic party and I now support the platform adopted by the last National Democratic Convention, held at Chicago.

I am sincerely grateful for the cordial support given me by the Democrats of the Eighth Congressional District in the past, and I have tried to show my appreciation of their confidence and kindness by increasing efforts, to be a faithful and efficient Representative.

If honored by the nomination, I believe, I can with the aid of my brother Democrats, redeem the district and in the future as in the past my best efforts shall be given to the faithful discharge of all duties required of me.

JAMES B. MCCREARY,  
Richmond, Ky.  
March 15, 1898.

THE announcement, of Hon. James B. McCrary, for the democratic nomination for congress in this district, published in this issue, is a source of proud satisfaction to his many warm friends in this county. Having led the democratic party to victory so often, he is looked upon, by many, as a political necessity—a Moses to lead the democrats out of the wilderness into which they were led in 1896. His repeated victories have caused him to be named the political Napoleon, and the comparison is good, excepting the fact that he has never seen a Waterloo, and his friends claim that he will not be defeated if nominated this time. His official career, as model Governor and congressman, for several terms, has made for him a host of admirers, who point with pride to his record and claim that he is the only man that can redeem the Eighth District to their party. They claim that his long public service is without just grounds for criticism, that his views and course, on all issues, were always on the side of the people and had in view the general welfare, and that his able work against high protective tariff and favored corporations should be considered by the party, when nominations are in order.

Now far these claims will go toward securing the nomination remains to be seen, as there are several other candidates in the field, who claim recognition at the hands of the Democratic party. Of course each county will be expected to instruct for its home man, and the candidate who can hold on and control the votes, after others are dropped, will win.

SINCE the adjournment of the Legislature Governor Bradley has vetoed several bills, among them—the bill deducting from teachers' salaries for the week when they attend institutes; the bill to give certain sheriffs two years longer to collect taxes, and the bill to prohibit contracts from specifying payment in gold. He has approved the postal telegraph bill, the bill to change the time of electing school trustees to October, and the bill giving children, born in slavery, the right to inherit. Only four bills remain to be considered, among them the cigarette bill.

MR. WALTER FORRESTER, in the Interior Journal, while commenting on the leading Senators, in the last session of the Legislature, says: "Senator Farris could get his samples unpacked often and quicker than any man in the territory," intending to compare his success as a commercial tourist to his aptitude in the Legislative hall. The Senator was certainly a faithful and able worker, and has the distinction of passing every bill and resolution, which he advocated or offered.

FRANCE should not be permitted to set a price on the Maine, nor to dictate the terms of Cuban independence. Uncle Sam should name all the conditions and if an unequivocal compliance does not follow war should be declared at once. Spanish cruelty and treachery is too well known to recognize her in any way, where dollars and human life are at stake.

THE preparations for war are still going on, and if Spain refuses to put up for the loss of the Maine, or declines to give Cuba her freedom, hostilities will, and should begin. Although the war will not last but a short time it will cost a considerable sum to prepare for it, but the nation should be properly equipped for defence, war or no war.

It being conceded that the Maine was destroyed by an explosive, from the outside, congress and the people are anxious for steps to be taken at once, and are impatient over the failure of the administration to announce its policy and the course to be pursued. The suspense is more trying than actual engagement would be.

THE toll-gate raid, in the western part of Boyle county last Saturday night was worse than any that we have had in Garrard county, and we regret exceedingly that our neighboring county is forced to submit to such a state of lawlessness.

It is thought that Gov. Bradley will veto the cigarette bill. If he does it will be because it is unconstitutional and cannot be enforced, for the bill is certainly a desirable one, and has in view the welfare of the young men of the country.

One of our citizens having 5 dogs, some one took pity on him and poisoned all but one, thus relieving him of a very great incumbrance.

The gardens are coming on nicely day by day, and we hope that Jack frost will please stay away. But while we are patiently waiting for beans, we are feasting very highly on hogs' jowl and greens.

The Sunday school at this place which went into winter quarters, for the first time in about twenty years, will be reorganized Sunday and it is to be hoped that many will attend, both old and young and take part in this a good work for the Master.

Luther Spears, who was once a frequent visitor to this place and a Mr. Leach, both of Lexington, spent one night one night of last week at Dr. Ray's. Will Dickerson, of Buena Vista, visited his brother, Ebb, Saturday night and Sunday. Miss Georgia Hunter who has been in our village for several weeks returned to her home in Nicholasville Monday. Isiah Lane was at the bedside of his brother, Freeman last week who is very low at his home near Stone. The wife of T. Bronson Ray and her niece, little Miss Josephine Watts, of Georgetown, are visiting Dr. Ray and family. To their surprise, the little girl on the first night of their arrival, developed a case of measles, but in a very light form.

A little boy asked for bottle of "get up in the morning as fast as you can," the druggist recognized a household name for "Dr. Witt's Little Early Risers," and gave him a bottle of those famous little pills for constipation, sick headache, liver and stomach troubles. Stormes' Drug Store. 1m

## Now Build Up with

Now is the time that every one should take a spring tonic to strengthen the system and prepare for the extra demands of Nature. Every spring the system is thoroughly overhauled—there is a general house-cleaning going on within. The impurities that have been accumulated for a year must be gotten rid of and the system renovated and prepared for the siege of summer. Unless Nature is assisted in this task, the strain on the system is too severe, and a breakdown for a year must be gotten rid of and the system renovated and prepared for the siege of summer.

Some people neglect to supply this assistance, and as a result they are overcome by an enervating, depressed feeling, their energies relax, appetite fails, and they are totally disabled for a season. Everybody just now needs a tonic, and Swift's Specific

## S.S.S. For the Blood

is logically the best tonic on the market. The general health needs building up, hence a tonic is needed that is entirely harmless. S. S. S. is purely vegetable, and is the only blood remedy that is guaranteed to contain no potash, mercury, or other harmful mineral ingredient. It is Nature's remedy, being made from roots and herbs gathered from Nature's great storehouse. It thoroughly cleanses the blood of all impurities, tones up the general health, renews the appetite and imparts new life and vigor to the entire system. Dangerous typhoid fever and other prevalent summer diseases seldom attack a person whose system is thoroughly cleansed and toned up with S. S. S. in the spring. Get S. S. S. and be prepared. Sold by all druggists.

## OBITUARY.

On Saturday evening the sad news  
of the death of Mr. Sim Arnold was  
received here. He died at the home  
of his father, Mr. T. M. Arnold, near  
Marksbury, after three days of in-  
tense suffering; of congestion of the  
brain, in the 29th year of his age. A  
very long procession of friends and  
relatives followed the remains to Lan-  
caster cemetery on Monday, where  
they were laid to rest, appropriate and  
touching funeral services being con-  
ducted by Elder James L. Allen. De-  
ceased was unmarried, a member of  
the Methodist church and a devoted  
son and brother. Being social, genial  
and kind-hearted, he had a host of  
friends and admirers. He was pos-  
sessed of the highest and noblest traits  
of character, and his attachments  
were lasting. Connected with a large  
and influential family, his acquaint-  
ance was extended, and there are ma-  
ny, besides his relations, who mourn  
his departure, and sighs will be heard  
and tears shed, beyond the confines of  
his home.

T. H. CAMPBELL.

Fill a bottle or common glass with  
urine and let it stand twenty-four  
hours; a sediment or settling indicates  
an unhealthy condition of the kidneys.  
When urine stains linen it is evidence  
of kidney trouble. Too frequent de-  
sire to urinate or pain in the back, is  
also convincing proof that the kidneys  
and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so  
often expressed, that Dr. Kilmer's  
Swamp-Root, the great kidney remedy  
fulfills every wish in relieving pain in  
the back, kidneys, liver, bladder and  
every part of the urinary passages. It  
corrects inability to hold urine and  
scalding pain in passing it, or bad ef-  
fects following use of liquor, wine or  
beer, and overcomes that unpleasant  
necessity of being compelled to get up  
many times during the night to urinate.  
The mild and extraordinary ef-  
fect of Swamp-Root is soon realized. It  
stands the highest for its wonderful  
cures of the most distressing cases. If  
you need a medicine you should have  
the best. Sold by druggists, price fifty  
cents and one dollar.

You may have a sample bottle and  
pamphlet both sent free by mail, upon  
receipt of three two-cent stamps to  
cover cost of postage on the bottle.

Colin-Nail Law.

The following law, just passed by  
the legislature, goes into effect June  
13th:

"Be it enacted by the General As-  
sembly of the Commonwealth of Ken-  
tucky:

"First—It shall be unlawful for any  
person to sell, barter or loan or give,  
to make, fabricate or manufacture, to  
have on his premises, in his possession  
or under his control, a cigarette wheth-  
er made by hand or manufactured,  
whether it be made of tobacco or other  
substance, whether it be covered  
with paper or other material, it shall  
be unlawful for any person to give on  
his premises, in his possession or un-  
der his control, any substance or ma-  
terial out of which any part of such  
cigarette could be made with the  
knowledge or purpose that at any time  
such substance or material might be-  
come a factor or in such cigarette."

"Second—Any person who shall vio-  
late the law as set forth in the first  
paragraph of this act, or shall evade it  
by a trick, artifice or method whatev-  
er, shall, upon conviction, be fined not  
less than \$10 nor more than \$100, or  
imprisonment in the county jail for  
not less than five nor more than 30  
days, or both so fined and imprisoned  
in the discretion of the jury, and each  
violation or evasion of law shall be  
deemed a separate offense."

How to Find Out.

Fill a bottle or common glass with  
urine and let it stand twenty-four  
hours; a sediment or settling indicates  
an unhealthy condition of the kidneys.  
When urine stains linen it is evidence  
of kidney trouble. Too frequent de-  
sire to urinate or pain in the back, is  
also convincing proof that the kidneys  
and bladder are out of order.

## FARM AND STOCK NOTES.

When an animal gets off its feed it is usually because the owner has been too generous. Do not overfeed in your effort to fatten rapidly. Haste in producing fattness destroys the appetite and disturbs digestion, and nature takes this method of giving the organs needed rest.

LINCOLN ITEMS.—Benzley Bros. sold to Samuel Deader a family horse for \$100. C. T. Bolton sold to H. H. Crow a pair of young mules for \$180. John Haugh sold to Allen, of the West End, a few heifers at \$14 each. Powell & Harper bought of J. P. Connelly a bunch of 1,000-pound cattle at \$4. Lyon & Wood bought of W. E. Christian, of Wayne, 80 one and two-year-old cattle at \$25.50. O. P. Huffmann bought of Dr. G. W. Brown a good butcher staff at \$3 1-2 and of W. P. Tate some hogs at 3-4 cts. J. C. Lynn sold to J. T. Crutcheff, of Madison, 14 heifers at \$10 and to G. T. Wood five heifers and steers at \$16. He bought of Dr. J. T. Morris 11 calves at \$13.50. Lyon & Allen sold to Mac Wheat 11 heifers at \$12 and to Wright & Camden eight cows at \$20. W. W. White bought of Crift Smith 10 1-2 acres adjoining his property on the Hanging Fork for \$90.—Interior Journal.

The department of agriculture reports that there is still in the hands of farmers the following amounts of last year's crops: Wheat, 121,000,000 bushels; corn, 788,000,000 bushels and oats, 272,000,000 bushels.

In raising a lamb from a bottle give it about a pint of milk a day and feed it every two or three hours if lamb is quite young. In the course of three or four weeks you can teach the lamb to drink from a bucket which is preferable to a bottle, the bottle being so hard to keep clean.

Unlike most animals, sheep feed profitably in cold weather.

It would be better if horses could drink little and often in cold weather, as well as in hot days. Getting very thirsty, they take in so much at one time as to check the process of digestion. Instead of assisting it, and chill the whole system beside.

It is well to harrow meadows and pastures, for it tears the roots and tends to thicken the grass. It also destroys moss which may grow on badly drained or cold ground. It is sometimes as essential to harrow these fields as it is to cultivate the corn.

Numerous experiments have been recorded to show that moisture is saved by cultivation. During hot, dry weather every foot of plowed land should be kept well stirred on the surface with any tool which will keep it from baking. A fine surface will hold down water like a wet blanket.

A few head of good animals, whether cattle, horses or hogs, are a large producer of the profit. Where a large number is reared by one breeder the personal attention given to each is the very slightest. This is especially true of horse raising, where the training and handling are superficial, aside from the training for speed.

Brood sows should have large roomy lots to exercise in and good houses to sleep in and not to many in a house. Do not feed them to much corn, but give them more slop. Just before farrowing time give them each a separate house and lot, cut off the corn feed, feed bran mash and a little oil meal. Note the results.

## STATE ODDS AND ENDS.

### BLOODY BATTLE

In Harlan County, in which three men were killed and two injured.

PAINVILLE, Ky., March 22.—One of the bloodiest battles ever fought in the Kentucky mountains took place Sunday afternoon on Puckett's creek, in Harlan county, about 16 miles from this place, in which three men were killed and two injured. The killed are: Elmer Snellings, Josiah Leroy and Was Taylor. They were at a neighbor's house drinking, when a quarrel arose between Snellings and Taylor, the former getting in the first shot but missing. Taylor then opened fire killing Snellings. Leroy had been at the stable, but hearing the shooting, rushed to Snellings defense. Finding him dead, he opened fire on Taylor, both shooting about the same time. When the fracas was over both were found to be stretched on the ground dead. Two men were wounded by stray bullets, but will recover.

The shooting is said to be the outcome of an old grudge which existed between the Snellings and the Taylors.

### NEGROES SOLD.

Jim Wade brought Two Dollars and a Quarter and Howard Two Dollars and fifty cents.

GLASGOW, Ky., March 22.—The sale of the Negroes, Jim Wade and Rufus Howard, brought an immense crowd to town Monday, in spite of the weather. Chief Deputy Sheriff Powell Harlow began the sale promptly at 1 o'clock. He announced that the sale would be upon a credit of three months, and title given for one year. Howard was first offered, and after many five-cent bids, was bought by W. T. Adams, a farmer, for \$2.25. When Wade was put up he asked that his father be sent for, but his father refused to bid on him, and Y. F. Swartz of Louisville, became his owner for \$1.50. Both boys seemed well satisfied with the result, but the general opinion is that the price paid was too much. This is the first time since 1863 that Negroes have been sold by a sheriff in this county. The Negroes sold at that time belonged to the Bradshaw estate and brought good prices.

### THE CROW SISTERS

Walked from Jail to Church Services, Escorted by an Officer.

VANCEBURG, Ky., March 21.—An unusual sight was witnessed here Sunday morning when Squire Fisher, accompanied by Sarah and Kate Crow, who are confined in the county jail, were awaiting the action of the next grand jury in the charge of resisting officers and shooting with intent to kill, walked into the Methodist church to attend the services. The girls had petitioned the 'squire to be allowed to attend church, and the kind hearted officer could not refuse them, himself acting as their escort.

Found Unconscious and Dying.

WALTON, Ky., March 21.—Mary E. Steinhauser, wife of John Steinhauser, of Morning View, Ky., started to a neighbor's house Saturday night, but never reached there. Not returning home, searching parties scoured the community at daylight. Nothing but pieces of her dress were found. At 9 o'clock Sunday morning Mrs. Steinhauser was found unconscious two miles from home, her arm broken and her clothes torn from her body. Foul play is suspected, and there is intense excitement.

### Police Judge Outted.

PAINTSVILLE, Ky., March 21.—A warrant was issued Friday from Justice Hall for the arrest of L. D. Canard, police judge of the town of Paintsville. The warrant charged Canard with drunkenness while in the discharge of his official duty. He sent in his resignation to the town board, who immediately accepted it and proceeded to fill the vacancy by appointing Hon. W. H. Vaughan.

Their Fears Are Groundless.

FRANKFORT, Ky., March 21.—The officials of the Frankfort penitentiary have been badly frightened for the past few days over the alarming symptoms of a convict recently sent up from Laurel county, which is near the smallpox district. He has been carefully watched, and now the physicians are positive the disease is not smallpox.

Capitalized at \$3,000,000.

FRANKFORT, Ky., March 21.—Articles consolidating the Great Southern Telephone and Telephone company and Cumberland Telephone and Telephone company under the name of the Great Southern and Cumberland Telephone and Telephone company, with headquarters at Hopkinsville, Ky., were filed with the secretary of state Monday. Capital stock \$3,000,000.

A Rain of Sulphur.

MT. VERNON, Ky., March 22.—A sulphur rain fell here Monday morning, and the ground was found to be covered with stuff that not only resembled the element, but burned and gave out the fumes. The phenomenon is reported from several parts of the county, and the superstitious of Rockcastle county consider it a sure harbinger of war.

Tollgate Guards Granted.

OWINGSVILLE, Ky., March 21.—Dr. H. E. Lewis, president of the Salt Lick turnpike, made application to Judge Ramsey for guards for the Owingsville and Salt Lick turnpike. This is the pike on which the tollhouse was dynamited a few nights since. Judge Ramsey granted the guards. Further trouble is feared.

Nine Cases of Smallpox.

NICHOLASVILLE, Ky., March 21.—There are nine cases of smallpox reported altogether at Richmond and Nicholasville. The board of health will take steps at once to quarantine.

Foretold Her Death.

LOUISVILLE, Ky., March 21.—Mrs. Clamar, a Spiritualist, told Mrs. J. H. Fleming, of 124 Floyd street, this city, Thursday afternoon that her mother, Mrs. S. A. Van Arsdale, was going to die Friday evening. The latter was then in good health, and Mrs. Fleming, of course, did not believe the medium. However, when she awoke Monday morning she found that her mother had been taken with a serious illness. Mrs. Van Arsdale died Friday evening, as predicted.

### VETOING BILLS.

Repeal Baggage Measure and Resident Agent Insurance Law Given a Death Blow.

FRANKFORT, Ky., March 17.—Gov. Bradley was hard at work all day examining bills, and he evidently had his veto machine in fine working order, as he knocked out almost as many bills as he approved. Among the first that he vetoed Wednesday afternoon was one that will bring sorrow to the hearts of the 6,000 bicyclists in Kentucky, it being the Tracey bill requiring railroads to carry bicycles as baggage. The other bills vetoed Wednesday are as follows:

Providing that an appeal may be taken to the court of appeals in habeas corpus cases.

Requiring that police judges in second-class cities shall receive pay for holding examining trials.

Resolution providing pay for idiots during the time their committees allowed the five-year inquest period to elapse.

Amending Chapter 63, Article 4, Section 12 of the general statutes, so that the sheriff may summon by-standers for jury service when the panel is exhausted.

Relating to revenue and taxation and a uniform system of valuation.

To legalize elections in certain graded common school districts.

Resolution providing that circuit clerks need not pay back to the state \$5 fees collected in felony cases.

Bill known as the "resident agents" bill, which requires all fire insurance policies written in this state to be written by a resident agent.

The governor vetoed house bill 476 Wednesday because of a glaring inaccuracy in the title of the bill. The title is "An act to repeal section 12, article 1, chapter 4, general statutes, which is section 2,025 Kentucky statutes, entitled 'Guardians and Ward'."

When looked up the body of the bill proposes to repeal chapter 48 of the general statutes, instead of chapter 4 Chapter 4 relates to deaf and dumb asylums, while section 2,025 of Kentucky statutes relates to guardians and ward, so the inconsistency makes the veto necessary.

FRANKFORT, Ky., March 18.—The governor closed business for St. Patrick's day by vetoing the bill allowing Kentucky insurance companies to invest their surplus in other than Kentucky securities, and Mr. Hinton's bill relating to sales of real estate to satisfy incumbrances. He also signed the bill changing the time of holding common school trustee elections from June to October. The result for the day was: Bills signed, 2; bills vetoed, 9.

The governor did not have as much raw material to work on Friday as he did Thursday, so the number of his vetoes decreased Friday to four and his approvals to one. The vetoes and the reason assigned for the veto was that it was contrary to the section 59 of the constitution, which provides for local legislation, and that the statute already provides a method for organizing such districts. No. 245 is an act to provide for the creation and government of suburban districts near second-class cities, and was especially intended for Highlands in Campbell county. It was vetoed for exactly the same reason given for vetoing No. 234.

House bill 212, providing that no contract shall be made to pay a debt in gold money, was vetoed, because it is contrary to the United States constitution and laws enacted as to currency in pursuance thereof.

He also vetoed house bill 298, to amend an act relating to fees, so that clerks, commissioners, receivers, examiners and sheriffs of Louisville shall report to the state auditor once a year, instead of monthly, because it will operate to increase the salaries of the officers mentioned. Therefore it is in conflict with section 161 of the constitution.

The only bill he approved Friday was the one known as the "osteopath bill," which provides that all physicians or healers who wish to practice their profession in this state shall first be examined and granted a license by the state board of health. The president of the state board of health agreed, however, to examine the osteopaths only in such branches as taught in their colleges, and this probably influenced the governor to sign the bill.

Yontsey Gets \$2 Years.

NEWPORT, Ky., March 22.—For the wrecking of the First national bank, of Newport, ex-Cashier Thomas R. Yontsey was sentenced Monday by Judge Taft's court in Covington to serve six years in the Ohio penitentiary and pay the costs of prosecution. Yontsey's conviction was upon 25 counts, charging embezzlement, and Judge Taft found there had been 10 distinct violations of the United States banking laws. A motion for a new trial was overruled.

Walter Goins Pardoned.

FRANKFORT, Ky., March 19.—Gov. Bradley pardoned Walter Goins, one of the Franklin county election raiders. Goins was charged with being accessory to the murder of Deputy Sheriff Deabins, but the proof was that Deabins was killed by Frank Egbert, who was in turn killed by the posse.

Blaze at Junction City.

DANVILLE, Ky., March 19.—W. S. Tuttle's drug store at Junction City burned at 1 o'clock Friday morning. The building was owned by Jasper & Surber. Insurance \$2,500 on stock, \$1,200 on building.

Large Tobacco Acreage.

VALLEY VIEW, Ky., March 19.—The outlook for the largest acreage of tobacco ever planted in this section is manifest by the increased number of tobacco beds being sown, there being more already sown in this section than was ever sown in one season.

Combination Cattle Sale.

ELIZABETHTOWN, Ky., March 19.—The farmers of this county have arranged for a combination sale of cattle to be held at Senora March 30. There will be for sale 1,000 high-grade cattle, offered to the highest bidders.

## HEAVY RAINS

Causes an Unprecedented Rise in the Salamon River.

PORTLAND, Ind., March 28.—The terrific rains of Monday night caused an unprecedented rise in the Salamon river and it is out of its banks, submerging hundreds of acres of farming land.

The river is raising rapidly every hour. The north and west portions of this city, because of insufficient sewerage, are being flooded and dozens of lots are under water. Large sections of Votaw, North Race and Arch streets are running streams and Meridian street, in almost the heart of the town, is a raging current.

The water is expected to come much higher, but has already done great damage.
